***Reason for Allowance***

The following is an examiner's statement of reasons for allowance:

In claims 60 and 71, the prior art does not disclose the first, active and inactive addresses are distinct from one another such that:

messages sent to the first IP address are received by the telephony module independent of a state in which the telephony module is,

messages sent to the active IP address are received by the telephony module only when the telephony module is in the active state, and

messages sent to the inactive IP address are received by the telephony module only when the telephony module is in the inactive state.

In claims 55 and 70, the prior art does not disclose:

a control system associated with the network interface and adapted to:

assign an active IP address to the first telephony module when the first telephony module is designated active and concurrently assign the second telephony module an inactive IP address when the second telephony module is designated inactive; and

assign the active IP address to the second telephony module when the second telephony module is designated active and concurrently assign the first telephony module the inactive IP address when the first telephony module is designated inactive,

wherein the first, second, active, and inactive IP addresses are distinct from one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
